

Jasper Junior Senior High School Three Year Improvement Plan

OUR VISION: Jasper Junior Senior High School students will complete high school to their fullest potential as lifelong learners and contributing global citizens.

OUR MISSION: We do this by providing the best possible education and by developing a sense of community that values responsibility, compassion, and curiosity.

2023-2024 School Goals

1. **Teachers will increase the usage of cooperative learning strategies to raise student engagement in all lessons.**

[-Click here to see our current 90 day plan for goal details, timelines, and evaluation methods.](#)

2. **Jasper Junior Senior High School will increase stakeholder input by inviting the school council and entire school community to participate in a discussion around the sustainability of French Immersion in our small high school and the associated impacts on other courses and academic achievement in Grades 10-12.**

[-Click here to see results of this process carried out in the Fall of 2023.](#)

3. **Track and support at risk high school students to improve our graduation average from 'high' to 'very high' by implementing refined student counseling and support, restructuring the Jasper TLC to provide greater math and science support and rigor, and offer wrap around services where needed to students at risk.**
